Local history

"Ya'Xaik, Yawhuch, Ya'qua'yik, Yahutes, and Youitts are some of the spellings explorers, Indian Agents, homesteaders, and others wrote as the Native American name of the area now known as Yachats, Oregon." For an exploration of the possible meanings behind the word, visit the Yachats history website of local historian, Theresa McCracken. yachats.history.com.

Books by Local Authors

Theresa McCracken is a naturalist, historian, writer, and cartoonist in Waldport, Oregon. Her first book of non-fiction was *Holy Rollers: Murder and Madness in Oregon's Love Cult*.

John Terry, The Oregonian's 'Oregon's Trails' columnist says of the book: "Bought a copy, took it home and straight away in the space of a couple of late evenings, read through it. A dandy piece of research and a good read. Lots more stuff than I was aware of. It deserves an audience.

These books are sold at The Drift Inn gift shop and Yachats Mercantile.

Fantasy for middle readers and above

Jay V. Chamber's fantasy writing is a natural extension of his fascination with the magic of life...

"Unicorn migration is early this year," said a deep male voice in a casual manner. "But you're late."

Fredrick Phalen is stunned by the stranger's greeting. While teasing his younger sister, Fredrick fell into the land of Waitington, where magic is real. Those he meets believe he is magic as well—in fact, a long-awaited magician.

Baffled by why he is there, and how to get home, Fredrick quickly finds out it is a crime to be a magician in Waitington. A crime punishable by death.

On the run, Fredrick meets many magical friends while trying to stay alive long enough to somehow make it home.
