- Days & Dates to Note

Linen Bedding

The bedding at The Drift Inn is made of linen, a fabric with fabulous features and advantages.

Linen is stronger and more durable than cotton, and it does not shed microfibers into our water systems and pollute the ocean like polyester does.

Linen is naturally beautiful, and it gets softer each time it is washed, making it luxurious to the touch.

Guest inquiries and requests for our linens led us to begin offering the sets of linen sheets, pillow cases, and duvet covers for sale at our Yachats Mercantile. Feather duvets, just like the ones in our rooms, are also available there for sale.

Meeting Space

Are you meeting up with family or friends and need a meeting space? Are you organizing a reunion, wedding, workshop, or retreat?

We can help with that! Just email, driftinnyachats@gmail.com, and let us know what you need, for how many, and when.

Join Us for Holiday Dining

Chef specials for St. Patrick's Day include Scottish Egg appetizers; Corned Beef served with Colcannon potatoes, cabbage, and carrots; and Irish soda bread. Live music at 6 p.m. provided by Casey Hilliard.

Easter Brunch specials will include Crab cakes Benedict and Quiche.

STARRY NIGHTS AT CAPE PERPETUA

Join the Cape Perpetua Collaborative and Oregon State Professor Rick Colwell, during one evening the week of March 20-27th for another wonderful, educational, and fun filled experience-stargazing within the Cape Perpetua Marine Reserve!

capeperpetuacollaborative.org/events

Thanks to a fabulous local team of trails volunteers, little Yachats has many miles of beautiful trails. The most famous are the easy oceanfront 804 Trail and the challenging Amanda Trail to the top of Cape Perpetua. A less known trail that is both short and steep is just outside The Drift Inn complex.

The Prospect Trail Starting at Prospect Street near its intersection with E 2nd Street, the trail winds up through the Prospect Garden where there are many native plants growing. The trail climbs steeply, crossing 3rd Street and King Street* before ending at Radar Road. You can now retrace your steps or walk down Radar Road to 7th Street and then to King Street. Turn right (north) on King Street which takes you to a cemetery and down to Highway 101. From here you can access the 804 Trail via the grounds of the Adobe Resort. The climb to Radar Road is strenuous, with steps. *On reaching King Street, if you were to turn right and follow King to its terminus, you would reach a short footpath that connects to Horizon Hill Road. The Prospect Trail is 0.2 miles, 15 minutes, one way. Steep. No Bikes. yachats.org/hikebikewalk
